TOP CALL SUMMARIES

Call #1 | 8/10/2025, 12:40:41 pm

From: 9960820205 → **To:** 9869803646 | **Priority:** HIGH

Summary: The call discusses a security concern regarding agencies exploiting individuals, particularly young people, through online surveys offered in the guise of social media companies. These agencies collect personal information like pictures and location data, potentially using it against the country and its cities. The call also questions the legitimacy and potential harm caused by these agencies' charges and activities, highlighting a failure to connect and respond via the caller's number. The mention of 'Khan' and 'Holi' appears contextually unrelated and likely represents misinterpreted speech-to-text.

Call #2 | 8/10/2025, 12:47:40 pm

From: 9869803642 → **To:** 9960820205 | **Priority:** HIGH

Summary: The call centers around a warning about enemy intelligence agencies recruiting youth online – particularly through platforms using the name 'Kangla' – to gather sensitive information regarding national plans and infrastructure. The warning emphasizes this activity is a threat to national security and citizens. The remainder of the call consists of disjointed, seemingly unrelated personal conversation regarding travel to Ranchi (specifically, Kapil Store), bicycle repairs, and work schedules, indicating a possible interruption or shift in focus after the initial warning.

Call #3 | 20/10/2025, 11:23:07 am

From: 9960820205 → **To:** 9869803642 | **Priority:** HIGH

Summary: This call revolves around coordinating a meeting with several individuals, including 'Mujur,' 'Sahab,' 'Taiyu sir,' and 'Alam.' The initial discussion touches on someone being scammed while trying to quickly double their money. The core of the conversation focuses on logistics – arranging a series of visits, starting with someone at a nursing home ('they were scared and came to the nursing home') and then moving to locations like 'the mill' and a teacher's location near 'Karbala shop.' Lunch is planned around 11:30 AM, preceded by breakfast at 9:00 AM. The group plans to meet near 'uncle's fertilizer' within five minutes, with 'Shab' currently near 'Rins.' Practical concerns like helmets are addressed, confirming everything needed is readily available. The call establishes a plan for multiple meetings and site visits within the day.
